

NATIONAL SERVICE “LOSE THE LINES”

ISA's Lose the Lines program helps you do away with the need for traditional phone lines used for fire alarm monitoring.

According to a California Fire Protection District, “In the coming years the FCC will no longer support using telephone lines for transmitting alarm signals.”

ISA WIRELESS FIRE ALARM MONITORING BENEFITS

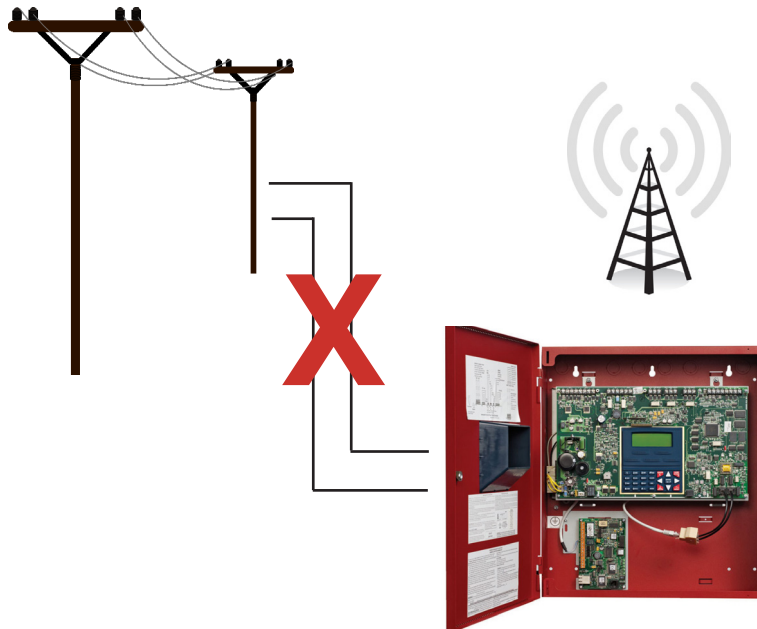

- No Upfront / Out of Pocket Costs
- Total Lower Monthly Expense
- Increased Reliability
- Freedom from Expensive Telephone Lines
- Cellular Communication and Fire Alarm Monitoring All in One Convenient Package

Act now and beat the deadlines. Don't get caught with your lines down.
